**********Please see back for important information**********

The Utilities Board of The Town of Butler

Terms for Water/Sewer Service

1. Meters are read approximately 5 days prior to monthly billing. Bills are mailed monthly. Current charges are due upon receipt and become delinquent after the 20th of the month. A $10.00 late fee will be added to the delinquent amount on the 1st of the month. The due date applies to the current charges and not to the delinquent amount. Water service will be disconnected on approximately the fourth Tuesday of each month if the delinquent amount is not paid. If service is disconnected, a $40.00 reconnection fee will be charged. No reconnection after normal business hours.
2. We will not be responsible for postal mistakes. Failure to receive the bill will not relieve the customer of payment obligation, nor will we make allowances for payments that have been mailed, but not received in our office. We have a night depository available, but advise customers to pay with a check or money order for them to have a receipt.
3. Returned checks will be charged a $25.00 service fee and the bill will be regarded as unpaid.
4. The service (meter, box lid, etc.) does not belong to the customer, but remains the property of The Utilities Board of The Town of Butler. Any damage to the meter service will be billed to the customer.
5. Only one residence and/or business may be served from one meter box. The Utilities Board of The Town of Butler reserves the right to bill multiple residences or businesses served from one meter service as a multiple account.
6. All customers are required to have a cut off device on the service line between the water service and the residence for those occasions when the customer wishes to cut off their own water supply for repairs, etc. It is also our recommendation that the customer install pressure reducers on the customer's line when pressure is in excess of 80 psi.
7. The customer acknowledges that the Utilities Board does not warrant or insure water to a customer and that at times, when repairs are necessary, an interruption of service may be unavoidable.
8. This application for water service becomes a binding contract for the service provided by the Utilities Board and constitutes an agreement to abide by the rules and regulations governing these services, including timely payments and reasonable and diligent protection of utility metering and other equipment at the service location. Billing will be at current rates for class of service as adjusted periodically as determined by the Board. Any or all fees, rules or regulations listed are subject to change without prior or public notice.

9. By signing below, I, _____,(print name) under penalty of perjury, do hereby declare that I am a citizen of the United States of America.

I understand that I, as the customer, will be responsible for payment of billings, as long as this service is listed in my name. I am of legal age and understand the conditions of this service application and the rules and regulations of the Utilities Board of The Town of Butler.
